Research Interests

Digital Humanities, Natural Language Processing, AI, Social Media Analytics, Computational Social Sciences, Corpus Linguistics, Language Resources and Evaluation.

Education

Doctorate in Natural Language Processing, University of Paris X Nanterre La Defense, 2015

M.A in Linguistics, University of Montreal, 2009.

B.A in Computational Linguistics, (Minor in Computer Science, Major in Linguistics), the University of Quebec in Montreal, **2002**

Academic Experience

8/2024 – Today: **Associate Professor in AI and Media Analytics**, Communication Program, Northwestern Qatar

7/2023 – 07/2024: **Associate Professor**, Digital Humanities Program, College of Humanities and Social Sciences, **Hamad Bin Khalifa University** (Qatar).

4/2019 – 8/2021: **PhD Program Coordinator**, College of Humanities and Social Sciences, **Hamad Bin Khalifa University** (Qatar).

1/2018 – 06/2024: **Assistant Professor**, Digital Humanities Program, College of Humanities and Social Sciences, **Hamad Bin Khalifa University** (Qatar).

1/2015 – 12/2017: **Postdoctoral Research Associate**, **Carnegie Mellon University** (Qatar). 9/2012 - 12/2014: **Senior Research Associate and project coordinator**, Computer Science Program,**Carnegie Mellon University** (Qatar).

2/2006 - 6/2011: **Senior Researcher,** the Linguistic Data Consortium, **University of Pennsylvania**, Philadelphia (USA).

3/2005 – 1/2006: **Computational Linguist** at the Language Technology group of the Joint Research Center (JRC), Ispra (Italy) with Dr. Ralf Steinberger. Worked mainly to create an Arabic Named Entities recognition module for the **Europe News Monitor** (EMM News Explorer and News Brief)

Consultancy/ Industry Experience

1/2009 - 8/2010: **Consultant** (Computational Linguist), Colorado University with **Dr. Martha Palmer**, Boulder, Colorado (USA)

12/2007 - 7/2008: **Consultant** in social media data analytics and information extraction and lexicon building, TEMIS, Paris (France)

9/2002- 6/2004: **Computational Linguist** / **Researcher** (Information Extraction) NSTEIN Technologies (Now OpenText Inc.), Montreal (Canada)

Research Grants Evaluation

- **QNRF** High School Research Experience Program (HSREP), **Panel expert reviewer** for five consecutive years: the editions of 2019; 2020; 2021, 2022, and 2023.
- **QCRI Internships awards, invited Expert Judge (Sept 2022)**
- **National Science Foundation (NSF), USA,** expert reviewer for the Arabic Language Resources area.
- **Grant reviewer** for the American Association for the Advancement of Science (AAAS) - 2016

- **Grant reviewer** for the KACST International Grant Competition on Arabic Natural Language Processing (2017)

Research Group

Given the funding obtained in recent years (6 active grants), I created in 2020 the **Data For Social Good (D4SG)** Research Group1. The group is currently expanding. Currently, the group is composed of a research group head, 2 affiliate researchers, 1 Post-Doc, 4 Research Assistants, 5 PhD students and 5 MA Students.

Honors/ Awards

- **Winner** of the **Early Career Researcher Award** (2nd place) , A HBKU wide award that recognizes outstanding researchers earlier on in their career and acknowledges their excellent research work and accomplishments. September 2022.
- **Best Paper Award** for Qur'an QA shared task 2022. The 5th Workshop on Open-Source Arabic Corpora and Processing Tools (OSACT5) at the 13th Language Resources and Evaluation Conference (LREC 2022).
- **Best project Award** from The Ministry of Development Planning and Statistics (MDPS). Meetings of the minds, April 2017, Carnegie Mellon University. The Arabic author profiling for cyber-security
- **Best Poster Award**. Meetings of the minds, Carnegie Mellon University. The QALB Project: Building Resources and Systems for the Automatic Correction of Arabic Text.
- **Award**: 105,000$ CAD.Joseph-Armand Bombardier Scholarships. Distinctive Canadian Program for Doctoral Scholarships (2011-2014)

Selected Invited Talks and Panels

- Challenges in Analyzing Data Produced in Arabic at the CIRS Roundtable on Big Data in the Middle East: January 19 & 20, 2020
- Social Media Analytics and Religious Text, Frankfurt University (Goethe), 22 October 2020
- Language Technologies for Social Media. Invited talk at the InFuture Conference in Zagreb, Croatia (2017)
- DA/MSA lexicon development. First Workshop on Arabic Dialect Technologies, NYU ABU DHABI, 14 to 16 November 2016
- Social Entrepreneurship: Improving Literacy in the Arab World Through Ebooks for Children. ROTA Empower Workshops 2016.
- Survey of the Freely Available Arabic Corpora. Qatar Computing Research Institute, Arabic Language Technologies Round Table, Doha, Qatar, April 23 2014.
- RENAR: A Rule-Based Arabic Named Entity Recognition System. Invited talk at the Carnegie Mellon University NLP Round Table., December 2013.
- Building a Lexical Semantic Resource for Arabic Morphological Patterns. 2013. Invited Oral presentation at the Arabic Natural Language Processing session at the International Conference on Communications, Signal Processing and their Applications (ICCSPA'13). Sharjah, UAE.
- The QALB Project. Guest talk at the 8th Assistive Technology Research Forum at MADA Center, Doha, Qatar, November 26th 2013
- Arabic Natural Language Processing and the Future. Invited by the CECTAL'13, Montreal, Canada. Sept 26th 2013.
- Recent advance of PropBank Annotation for Arabic. Invited presentation at the UQAM - AECSL Round Table, Montreal, Canada, December 2013

Selected Invited Tutorials

- Tutorial on Mobile Application Creation, 6 May 2019 (QCRI Research Complex)
- Fact-Checking in Social Media 101, Zagreb University, Croatia (Nov 2017)
- Data Mining for Humanities for Social Media (Nov 2017), a graduate seminar delivered to 24 PhD students from Zagreb University, Croatia
- Semantic Annotation (2 hours tutorial), University of Quebec in Montreal Linguistics Colloquium (December 2012)
- Introduction to Corpus Linguistics (3 hours tutorial), the University of Quebec in Montreal Students Linguistics Colloquium (May 2011)
- Arabic Corpus Linguistics: Tutorial (2 days), December 2011, Faculty of Humanities, Kairouan University

- Unix commands tutorial for Natural Language Processing (with Dave Graff). The Linguistic Data Consortium (LDC), The University of Pennsylvania. March 2009, Philadelphia, PA

Media Outreach and Interviews

- Media Coverage for the International Workshop on Arabic Big Data and AI to be held at QNL auditorium on May 11-12 2022 and organized by Wajdi Zaghouani and posted in Qatar Living, Lusail News, Fanar Media and Al Arab.
- Tools and Applications to help us fight the COVID-19. Al Araby TV. (2020)
- COVID-19 and the Job Market. Qatar TV. (2020)
- MES Conference Presentation and Discussion. Al-Sharq.com (2020)
- COVID-19 and Fake News Detection. Www.alarab.qa. (2020)
- MES Conference Presentation and Discussion. Qatar TV. (2020)
- Digital Humanities in MENA region. Al Watan (2018)

International Conference and Workshop Organization

- **Chair** of the First International Workshop on Arabic Big Data & AI (IWABigDAI), May 11 and 12, 2022
- **Co-organizer and publicity chair** of the 2022 Conference on Empirical Methods in Natural Language Processing (Abu Dhabi, December 8th 2022)
- **Co-organizer** of the CLEF-2022 CheckThat! Lab on fighting the COVID-19 infodemic and fake news detection (5 - 8 September 2022, Bologna – Italy)
- Co-organizer of the WANLP-2022, The Seventh Arabic Natural Language Processing Workshop co-locate with EMNLP 2022 (Abu Dhabi, December 8th 2022)
- Co-organizer of the SHARED TASK ON PROPAGANDA DETECTION IN ARABIC, co-located with EMNLP in Dec 8, 2022, Abu Dhabi, UAE
- Co-organizer, MESD - MES Conference 2022,. Digital Humanities Panel.
- Program Chair, 8th IEEE International Conference on Behavioral and Social Computing (BESC), (University), 2021
- **Co-organizer** of the Sixth Arabic Natural Language Processing Workshop Co-located Online with EACL 2021, Apr 19, 2021
- Co-organizer of the first SHARED TASK ON SARCASM AND SENTIMENT DETECTION IN ARABIC, co- located with WANLP 2021: The Sixth Workshop for Arabic Natural Language Processing / EACL Apr 19, 2021
- **Co-organizer** of The Fifth International Arabic Natural Language Processing Workshop , ACL 2020, Barcelona, Spain, Dec 12, 2020
- **Chair and Organizer** of the Workshop on Digital Humanities and Computational Linguistics in the Middle East, April 20, 21 2020
- **Co-organizer** of Author Profiling and Deception Detection in Arabic shared task, The 11th meeting of Forum for Information Retrieval Evaluation 2019 held in Kolkata, India,
- Co-organizer of the International Fake News Detection Contest (QICC), held from October 1-3, 2019.
- **Co-organizer** of The Fourth International Arabic Natural Language Processing Workshop ,
- ACL 2019, Florence, Italy, July 28-Aug 2, 2019

- **Chair and organizer** of the First International Workshop on Social Media Analysis in the Arab World co- located with the Social Informatics Conference (SocInfo 2019) on November 18, 2019
- **Co-organizer** of the CLEF-2018, international evaluation LAB on Automatic Identification and Verification of Claims in Political Debates held on Sept 2018 in Avignon, France.
- **Conference Area Chair** (Resources and Evaluation) of the 55th annual meeting of the Association for Computational Linguistics (ACL) in Vancouver, Canada. July 30 - August 4 2017.
- **Co-organizer** of the Third Arabic Natural Language Processing Workshop co-located with EACL 2017, Valencia, Spain, Apr 3, 2017
- **Co-organizer** of the 2nd Arabic NLP workshop co-located with ACL- IJCNLP 2015, Beijing, China.
- **Co-organizer** and member of the Shared task committee in the first Shared Task: Automatic Arabic Error Correction co-located with the WANLP (ACL-IJCNLP) 2015, Beijing, China
- **Co-organizer** of the 1st Arabic NLP Workshop co-located with EMNLP 2014 in Doha, Qatar
- **Co-organizer** and member of the Shared task committee in the first Shared Task: Automatic Arabic Error Correction co-located with the WANLP (EMNLP) 2014 in Doha, Qatar
- **Chair** of the CEC-TAL 2013 Conference, Tunisia

Past Research Projects

- Multi-Arabic Dialect Applications and Resources (MADAR): the main objective of this project is to develop a suite of four novel multi-dialectal resources which will be used to conduct original research in two applications that are valuable enabling technologies necessary to support future research in Arabic NLP.
- The Optimal Diacritization for readability and comprehension project (OPTDIAC): An Optimal Diacritization Scheme for Arabic Orthographic Representation. The
- overarching objective is to improve Arabic NLP in general as well as improve readability and comprehension rates for Arabic text
- Qatar Arabic Language Bank (QALB): This project aims to build a large corpus of manually corrected Arabic text for building automatic correction tools for Arabic text.
- WikiTea Open Data Project: The goal of the project is to create techniques, toolsand resources for enhancement and expansion of Arabic Wikipedia through Statistical Machine Translation.
- AL-Kitaab Digital Book Project: The goal of this project is to create a Digital version of the Al- Kitaab book in order to develop a Reading comprehension tool for Arabic learners.
- Arabic Symbol Dictionary For AAC Users: The goal of the project is the development of an Arabic Symbol Dictionary for Augmentative and Alternative Communication (AAC) users, as well as those who may benefit from the use of symbols to enhance literacy skills.
- Fairuz Arabic Historical Dictionary: The goal of the project is to create unique historical dictionary of the Arabic language. The project is a collaboration between the University of Pennsylvania and Bibliotheca Alexandria.
- The Georgetown Digital Dictionary of Iraqi: I was involved with Mohammed Maamouri at the Linguistic Data Consortium in the digitization and the development of the Iraqi lexicon for the project with Georgetown University Press.
- The Georgetown Digital Dictionary of Moroccan Arabic: I was involved with Mohammed Maamouri at the Linguistic Data Consortium in the digitization and the development of the Iraqi lexicon for the project with Georgetown University Press.
- Early Warning Intelligence Solutions (EWIS) : The project aims to build advanced analytics solutions for warnings about outbreaks of diseases and viral infections.
- The Penn Arabic PropBank Digital Corpus Project: a corpus that is annotated with verbal propositions and their arguments.

- The Penn Arabic TreeBank Digital Corpus Project: a parsed text corpus that annotates the syntactic structure according the LDC guidelines.
- The Nstein E-Publishing Tool: The Arabic NConcept Extractor: I helped in building the Arabic Concept Extractor with Nstein Technologies, a provider of computer- aided indexing(CAI) solutions to thee-publishing industry.
- The Europe Media Monitor (EMM) Digital News Explorer Project: I helped in building the Arabic News Explorer system using the JRC developed technology to automatically generate daily news summaries, allowing users to see the major news stories in various languages for any specific day and to compare how the same events have been reported in the media written in different languages.
- The Arabic News Medical Media Alert System: I was heavily involved in building the Arabic Medical Terminology used in the MEDISYS system which is a media monitoring system providing event-based surveillance to rapidly identify potential public health threats using information from media reports.
- The PropBank Annotation of Quran: In this pilot project, we leverage our knowledge and experience from our involvement in the APB project. All the Quranic Arabic PropBank annotations will be made freely available for research purposes.
- The Pilot Crowdsourscing experiment for the Open Quran Project: In this pilot project, I teamedwithKaisDukes inordertodo a Crowdsourcing experiment to annotate theQuranic Arabic Corpus.
